

Dear FCC<

One of the best things we have done within the past 2 years is sign up for the New Jersey do not call list. The number of intrusive, obnoxious and overzealous telemarketers has been reduced significantly. We can have dinner as a family without being interrupted. We can feel safe and unmolested in our own home without rude, obnoxious interruptions. We can go on vacation and we don't find that our answering machine has been filled with messages from telemarketers. As consumers we are inundated with advertising. An hour news program is really 20 minutes because of all the ads. We no longer go to the movies because the first 30 to 40 minutes is all advertising , there are pop up ads on the internet, I can't even keep my fax machine on without some bozo sending me a flyer about their company and products! ( wasting my paper and ink in the process) Please we should be able to feel at peace in our own homes with out strangers dialing up to sell us something. Please don't weaken the do not call law. Making it stronger would be even better.
